

HW 4

① $a(t) = \cos(313\pi t) - \cos(113\pi t) - \cos(13\pi t)$ @ 100 Hz

$$a[n] = \cos(3.13\pi n) - \cos(1.13\pi n) - \cos(0.13\pi n)$$

$$= \cos((2+1.13)\pi n) - \cos(1.13\pi n) - \cos(0.13\pi n)$$

$$a[n] = -\cos(0.13\pi n)$$
